Professional Experience

Bosch Jan 2024 — Present

Senior Frontend Engineer

PRO360 (One PRO Ecosystem)

PRO360 is an access portal for Bosch Professional services.
Users can register once to enjoy benefits, such as extending their tool warranty from 1 to 3 years.
I am part of one of the feature teams, which includes 3 frontend developers, myself included.
Our work focuses primarily on redesigning and enhancing existing features, while also adding new ones, in the web and mobile apps.

React, React Native, TypeScript, Redux, RxJS, Jasmine

Bosch Nov 2022 — Jan 2024

Senior Frontend Engineer

RefinemySite

LEAN collaboration platform.
I was part of the BIM team, one of the feature teams of this project.
This frontend team had 3 developers, including me.
I mostly worked with 3D models, using Three.js and IFC.js libraries.
This project went into maintenance mode, which is why I moved to another project.

Angular 16, NgRx, RxJS, Three.js, IFC.js, Jasmine

KPMG (Boost IT) Feb 2022 — Nov 2022

Senior Frontend Engineer

KYC - New clients onboarding

Built a Know Your Customer platform with 7 frontend developers.
I was part of the leading team, together with another frontend colleague.
Web application built with a Micro-frontends architecture, with one BFF (Backend For Frontend) for each Micro-frontend.

Angular 12, Micro-frontends, NestJS, Node.js, RxJS

KPMG (Boost IT) Oct 2021 — Feb 2022

Senior Frontend Engineer

AEOI - Tax reporting

Helped simplify tax reporting obligations.
Migrated the old webapp from AngularJS to Angular 12.
Led a frontend team of 4 developers.

Angular 12, AngularJS, Migration

WOW! (Innowave) May 2021 — Oct 2021

Full Stack Developer

US Telco

Developed new features for WOW! for business.
Led a frontend team of 6 developers.

React, Next.js, Node.js, Serverless, AWS

NOS (Innowave) Oct 2018 — May 2021

Full Stack Developer

PT Telco

Developed, designed and built all the layers (frontend and backend) of FCNA and SIGI (webapps used internally by NOS colleagues).
I was also involved in other projects, making technical decisions and guiding more junior developers.

Angular 7-11, Node.js, Express, NestJS, Java, MongoDB, Docker, K8s

CGI Jul 2017 — Oct 2018

Junior Full Stack Developer

EDSN, Netherlands

Migrated an internal management webapp from Adobe Flash to Angular 6 on the frontend and Spring MVC with Java 8 on the backend.

Angular 6, Adobe Flash, Spring MVC, Java 8
